

We have used our 15 years experience in the wine business to put together a wine list which is focused on delivering quality and value. We feel that we can offer better wines at better prices than most. We have constructed our wine list with an eye to offering good quality, reasonably priced wines, with the majority being under €30. In order to encourage you to sample the quality and value offered by our €30+ wines we have reduced the price of all of these by at least 10%. We have also introduced a selection of classic fine wines which you can enjoy in our restaurant at Wine Shop prices.

We also offer a wide range of wines by the glass. We have invested in a 'Le Verre de Vin' system which guarantees the freshness of our 'by the glass' wines.

Our sister business, Mc Hugh's Off-Licence has won the 'National Beer Specialist Award' at the National Off-Licence Awards for 9 of the last 11 years. We have used this experience to offer a range of beers encompassing some of the most popular beers and also some more unique and interesting brews for you to experience.
